

Valmet – unique offering to support a growing market

Roadshow presentation
March 2025

Agenda

Valmet roadshow presentation

- 1 Valmet in brief
- 2 Investment highlights
- 3 Financial targets and acquisitions
- 4 Q4/2024 and 2024 financials, guidance and short-term market outlook

Valmet in brief

Valmet's offering is unique and the widest in the market

Board and tissue

- Board, paper and tissue production lines
- Tissue converting
- Rebuilds
- Machine sections

Pulp

- Wood and pulp handling
- Fiber processing
- Recovery

Energy

- Heat and power generation
- Air emission control
- Pyrolysis solutions

Services

- Spare parts and components
- Production consumables
- Maintenance and shutdown services
- Process support and optimization
- Outsourcing services

Process Technologies

Customer

Automation Systems

- Distributed Control Systems (DCS)
- Quality Management Systems (QMS)
- Analyzers and measurements
- Industrial Internet solutions

Flow Control

- Valves
- Valve controllers
- Valve automation

Services

Automation

We have strong market positions

Global presence creating a good platform for growth in Services and Automation

Valmet's R&D is aiming to address global megatrends

R&D focus areas

- Promotion of renewable materials
- Raw material, water and energy efficiency
- Emission reductions
- Circularity
- Productivity and environmental improvements with digitalization

Acknowledged leader in sustainability

360° approach to sustainability across value chain

Good sustainability ratings

- AAA rating in the MSCI ESG Ratings assessment 2025
- A rating in CDP's climate program ranking 2024
- Gold Medal in the EcoVadis sustainability assessment 2024, among the top 5%

Member of
**Dow Jones
Sustainability Indices**
Powered by the S&P Global CSA

Valmet's Climate Program has progressed well

The target to enable carbon neutral production for pulp and paper industry customers achieved seven years ahead of schedule

Targets by 2030 for the entire value chain

SUPPLY CHAIN

- 20%

CO₂ emission reduction¹

- First, 30 most relevant suppliers in terms of CO₂ emissions were engaged to the program
- Today already ~90 suppliers engaged
- All key and main suppliers of physical goods, around 150 suppliers, will be engaged by the end of 2024.

¹) Baseline 2019

OWN OPERATIONS

- 80%

CO₂ emission reduction¹

- Emissions from fuels, heating, and electricity in Valmet's offices and production units have decreased by 41 percent
- During 2023, all electricity in Finland and Sweden, representing 60 percent of Valmet's total consumption, was purchased as carbon neutral

USE PHASE OF VALMET'S TECHNOLOGIES

- 20%

Further reduced energy use of Valmet's current technologies

- Continuous R&D work to further enhance energy efficiency of existing technology offering

100%

Carbon neutral production process for pulp and paper industry customers

- We have reached this target seven years ahead of schedule

Investment highlights

Valmet's investment highlights

- 1 Unique offering to support a growing market
- 2 Process Technologies segment benefiting from the growing demand for bio-based products and energy
- 3 EUR 3.4 billion recurring and steadily growing stable business
- 4 Services segment's demand driven by large and growing global installed base
- 5 Automation segment with high growth and profitability
- 6 Future growth possibilities from new sustainable innovations

Unique offering to support a growing market

Unique offering

Competitive advantage from the widest offering in the market

Strong market drivers

Process Technologies

- E-commerce and global trade
- Renewable materials replacing plastic packaging
- Conversions from paper to board
- Energy transition and CO₂ neutral energy production
- Energy supply security
- Tightening air emissions legislation and stricter directives

Services

- Large and aging global installed base
- Customers' CO₂ reduction targets
- Energy and resource efficiency
- Productivity and end-product quality
- Digitalization, remote services and industrial internet

Automation

- Automation and digitalization are global megatrends
- Aging machines and installed automation systems
- Demand for raw material savings, process efficiencies and sustainability
- Customers' demands on safety, reliability and emissions

Process Technologies segment benefiting from the growing demand for bio-based products and energy

- New pulp and paper capacity is needed as demand for bio-based products continues to grow
- Energy transition creates a growing market for Valmet's energy offering
- Large old and inefficient installed base generates a significant replacement market for Valmet
- Strong business model with large prepayments and low capacity costs
- Comparable EBITA margin 3.6% (2024)

Demand for pulp and paper continues to grow (Global demand, Mton)

Net sales (EUR million)

Valmet's operational efficiency has increased

EUR 3.4 billion recurring and steadily growing stable business

Orders received
(EUR million)

Figures in dark green for Valmet Services segment, light green for Valmet Automation segment.
2013-2020 figures have not been restated.

- Valmet's stable business has grown steadily since 2014
- Future growth possibilities are supported by favorable megatrends
- Stable business provides resilience to business cycles and makes Valmet's order intake less cyclical

Services segment's demand driven by large and growing global installed base

- Valmet's Services is a growing and recurring business
- Demand driven by large and growing global installed base
- Roughly EUR 8 billion addressable market estimated to grow 2% annually
- Target to continue to grow over two times the market growth
- Competitive advantage from the widest offering in the market
- Strong presence in all market areas covering all key customer corporations
- Solid track record for growth
- Comparable EBITA margin 17.4% (2024)

Orders received (EUR million)

Service market development and estimate (EUR million)

Automation segment with high growth and profitability

- Valmet's Automation is a growing and recurring business
- Large addressable target market estimated to grow ~3% annually
- Target to continue to grow over two times the market growth
- Sustainability, digitalization and targets for operational efficiency drive the market for Automation Systems
- Flow control market for critical valves and valve automation has barriers of entry enabling solid profitability for leading players
- Opportunities to grow outside the core pulp and paper industry organically and through M&A
- Comparable EBITA margin 17.7% (2024)

Orders received (EUR million)

Automation Systems target market (EUR million)

Flow Control market (EUR million)

Source: Frost & Sullivan

Future growth possibilities from new sustainable innovations

Textile fibers

- Technology to produce viscose pulp from recycled clothes and other textiles
- Technology for cellulose based textile fiber production

Valmet 3D fiber

- Next generation of molded fiber
- More efficient production process compared to current solutions
- Produces ready-made 3D packages directly from wet pulp
- High-quality end product could replace plastics in various packaging solutions

New bioproducts

- Lignin usage to replace fossil-based carbon in batteries
- Pyrolysis for biochemicals and biofuels production to replace fossil-based fuels

Flow Control and Automation Systems

- Solid position to grow in green hydrogen in Flow Control
- Renewal of Automation Systems platform creates opportunities for further growth
- Growth opportunities in energy and process industries in Automation

Building Valmet on positive megatrends and strategy of renewal and continuous development

Demand for bio-based products and energy continues to grow	New growth opportunities	Steadily growing stable business	Strategy
<ul style="list-style-type: none">• The large pulp and paper market is growing and supported by favorable megatrends and sustainability• Energy transition creates a growing market for Valmet's energy offering• Valmet has strong market positions and opportunities to increase market share	<ul style="list-style-type: none">• Future growth possibilities from new sustainable innovations• Growth opportunities in energy and process industries in Automation	<ul style="list-style-type: none">• EUR 3.4 billion stable business with high margin• Stable business has high margins and resilience to market cycles• Large and aging installed base generates a significant market	<ul style="list-style-type: none">• Strong track record of successful acquisitions and possibility to continue to invest in selected acquisitions• Strategy based on building the future systematically with renewal and continuous improvement

Financial targets and acquisitions

Financial targets

Growth

Net sales for Services and Automation segments to grow over two times the market growth

Net sales for Process Technologies segment to exceed market growth

Profitability

Comparable EBITA:
12–14%

ROCE

Comparable return on capital employed (ROCE) before taxes¹ at least 15%

Dividend policy

Dividend payout at least 50% of net profit

¹: Comparable ROCE before taxes = (profit before taxes + interests and other financial expenses +/- items affecting comparability) / (balance sheet total - non-interest-bearing liabilities (average for the period))

Concrete actions to reach Comparable EBITA target of 12–14% through must-wins

Customer

- Grow stable business over two times the market growth
- Maintain and improve market share in Process Technologies
- Improve price and sales management

Technology

- Leverage strong R&D for new product innovations
- Continue to bring advanced technology to the market
- Improve product cost competitiveness

Processes

- Ensure good project operations to reach a positive margin deviation in projects
- Improve supply chain operations to harvest cost savings
- Manage quality throughout the supply chain to minimize quality costs

People

- Increase procurement, production and engineering capabilities in cost-competitive countries
- Utilize global training portfolio to strengthen Must-Win execution

Improvement in Comparable EBITA is the biggest driver for ROCE

Main drivers for ROCE:

- Improvement in Comparable EBITA is the biggest driver for ROCE
- Capital employed increased in 2022 due to the Neles merger

Track record

Capital employed (EUR million)

Comparable ROCE (% , before taxes)

Valmet has paid attractive dividend

- Payout target at least 50% of net profit
- Target has been exceeded every year
- Constant dividend growth

Total payout (EUR)
in dividends
2013–2023

1.3bn

1: Board of Director's proposal to the Annual General Meeting

Opportunities to strengthen Services, Automation and Process Technologies segments through acquisitions

Strong track record of successful acquisitions

- 14 acquisitions made since becoming an independent company in 2014
- Total investment in acquisitions and in the merger with Neles about EUR 2.5 billion

Acquisition strategy

- Opportunities to strengthen Services, Automation and Process Technologies segments
- Selective acquisitions with a clear industrial logic and synergies
- Targeting to support Valmet in reaching financial targets
- Approximately 50 cases evaluated annually

Track record of successful acquisitions

Q4/2024 and 2024 financials, guidance and short-term market outlook

Key figures

Comparable EBITA margin development

Net sales and Comparable EBITA (EUR million and %)¹

1. Valmet implemented IFRS 15 – Revenue from Contracts with Customers as of January 1, 2018 by applying full retrospective method. 2015–2020 figures have not been restated to reflect Valmet's current reporting structure. Thus, figures presented are not fully comparable.
2. Services and Automation segments are called Stable Business and the Process Technologies segment Capital Business.

Net debt remained at the previous quarter's level

Net debt (EUR million) and gearing (%)

Net debt to EBITDA* ratio

- Net debt remained at the previous quarter's level and gearing amounted to 39%
- Net debt to EBITDA* ratio increased compared with Q4/2023
- The average interest rate of Valmet's total debt was 4.0% at the end of 2024
- Net financial expenses amounted to EUR 65 million in 2024 (EUR 34 million in 2023)

Valmet implemented IFRS 16 – Leases as of January 1, 2019 by applying the simplified transition method and therefore 2018 figures are not restated.

*Last twelve months (LTM) EBITDA

Dividend Proposal

Dividend policy

- Dividend payout at least 50% of net profit

Board of Directors' proposal to the Annual General Meeting

- EUR 1.35 dividend per share, which represents 89% payout ratio
- The dividend shall be paid in two installments

Guidance and short-term market outlook

Guidance for 2025 (Published on February 13, 2025)

Guidance

Valmet estimates that net sales in 2025 will remain at the previous year's level in comparison with 2024 (EUR 5,359 million) and Comparable EBITA in 2025 will remain at the previous year's level in comparison with 2024 (EUR 609 million).

Short-term outlook

Process Technologies

Valmet estimates that the customer activity will remain stable. It is typical that customers' large investment decisions can have a major impact on the market activity.

Services

Valmet estimates that the customer activity is gradually improving, but the capacity utilization rates and profitability levels of customers cause uncertainty to the short-term market outlook.

Automation

Valmet estimates that the customer activity will remain stable.

The short-term market outlook is given for January–June 2025 compared with October–December 2024. It is Valmet's estimate of the customer activity and should not be interpreted as guidance for Valmet's orders received.

Valmet's investment highlights

- 1 Unique offering to support a growing market
- 2 Process Technologies segment benefiting from the growing demand for bio-based products and energy
- 3 EUR 3.4 billion recurring and steadily growing stable business
- 4 Services segment's demand driven by large and growing global installed base
- 5 Automation segment with high growth and profitability
- 6 Future growth possibilities from new sustainable innovations

Important notice

It should be noted that certain statements herein which are not historical facts, including, without limitation, those regarding expectations for general economic development and the market situation, expectations for growth, profitability and investment willingness, expectations for company development, growth and profitability and the realization of synergy benefits and cost savings, and statements preceded by “anticipates”, “believes”, “estimates”, “expects”, “foresees” or similar expressions, are forward-looking statements. Since these statements are based on current decisions and plans, estimates and projections, they involve risks and uncertainties which may cause the actual results to materially differ from the results currently expressed. Such factors include, but are not limited to:

- 1) general economic conditions, including fluctuations in exchange rates and interest levels which influence the operating environment and profitability of customers of the company or economic growth in the company’s principal geographic markets.
- 2) industry conditions, intensity of competition situation, especially potential introduction of significant technological solutions developed by competitors, financial condition of the customers and the competitors of the company,
- 3) the company’s own operating factors, such as the success of production, product development and project management and the efficiencies therein including continuous development and improvement
- 4) the success of pending and future acquisitions and restructuring.

4 Offering

5 Management and remuneration

Appendix
Financials

Quarterly Comparable EBITA margin development

Net sales and Comparable EBITA (EUR million and %)

Comparable gross profit and SG&A expenses development

Comparable gross profit
(EUR million and % of net sales)

Comparable SG&A expenses
(EUR million and % of net sales)

- Comparable gross profit was 28% of net sales in Q4/2024 (26% in Q4/2023)
 - Stable business represented 65% of net sales (59% in Q4/2023)
- Comparable SG&A expenses were EUR 5 million higher in Q4/2024 compared with Q4/2023
 - Comparable SG&A expenses were 16% of net sales in Q4/2024 (16% in Q4/2023)

Capital employed, Comparable ROCE and EPS

Capital employed (EUR million) and Comparable return on capital employed (ROCE), before taxes (%)

- The acquisitions of Analyzer Products and Integration in 2024 and Tissue Converting in 2023 and the integration of Flow Control into Valmet in 2022 have increased capital employed

Earnings per share (EPS) and Adjusted EPS, EUR

- 2024 Adjusted EPS decreased compared with 2023 mainly due to lower operating profit and higher net financial expenses

Valmet implemented IFRS 16 – Leases as of January 1, 2019 by applying the simplified transition method, and IFRS 15 – Revenue from Contracts with Customers as of January 1, 2018 by applying full retrospective method. Thus, figures presented are not fully comparable. LTM = Last twelve months.

*Adjusted EPS. Adjusted earnings per share is an alternative performance measure that excludes the impact of fair value adjustments arising from business combinations, net of tax.

Cash flow provided by operating activities and net working capital

Cash flow provided by operating activities (EUR million)

Net working capital¹ and orders received (EUR million)

- Cash flow provided by operating activities amounted to EUR 554 in 2024 and EUR 178 million in Q4/2024
- CAPEX¹ amounted to EUR 107 in 2024 and EUR 30 million in Q4/2024
- Net working capital amounted to EUR 134 million, which equals 2% of last 12 months orders received
 - Compared to year 2021, Valmet's net working capital has increased mainly in capital business and due to integration of Flow Control and Tissue Converting into Valmet
 - Today, Valmet's business mix contains more stable business, which typically ties up more net working capital than capital business
- Change in net working capital² amounted to EUR 43 million in 2024 and EUR 15 million in Q4/2024

Valmet implemented IFRS 16 – Leases as of January 1, 2019 by applying the simplified transition method and therefore 2018 figures are not restated.

1. Excluding business combinations and right-of-use assets.

2. Change in net working capital in the consolidated statement of cash flows.

Debt maturity structure

As at December 31, 2024, EUR million (excluding lease liabilities)

Annual repayments

Services: Orders received increased to EUR 1.9 billion in 2024

Orders received (EUR million)

Net sales (EUR million)

Comparable EBITA (EUR million and % of net sales)

- Orders received increased compared with 2023
 - Orders received increased in North America, South America, EMEA and Asia-Pacific and remained at the previous year's level in China
 - Excluding Tissue Converting, orders received increased in Fabrics, remained at the previous year's level in Rolls, Performance Parts and Board, Paper and Tissue Solutions and decreased in Pulp and Energy Solutions
 - Orders received of Tissue Converting amounted to EUR 143 million
- Net sales increased compared with 2023
- Comparable EBITA increased compared with 2023 due to integration of Tissue Converting

Automation: Orders received increased to EUR 1.4 billion in 2024

Orders received (EUR million)

Net sales (EUR million)

Comparable EBITA (EUR million and % of net sales)

- Orders received increased compared with 2023
- Net sales increased compared with 2023
- Comparable EBITA remained at the previous year's level compared with 2023

2016-2020 figures have not been restated and include internal orders received and net sales. Automation segment includes Automation Systems and starting from Q2/2022 also Flow Control

Flow Control: Orders received amounted to EUR 763 million in 2024

Orders received (EUR million)*

Net sales (EUR million)*

- Orders received remained at previous year's level and amounted to EUR 763 million in 2024
- Net sales remained at previous year's level and amounted to EUR 791 million in 2024

* 2016–2017 financials based on carve-out numbers; 2018–2019 financials based on Metso's "Continuing operations" as in 2019 annual report; Q1/2020–Q1/2022 financials as reported in Neles' Q1/2022 interim review.

Automation Systems: Orders received increased to EUR 683 million in 2024

Orders received (EUR million)

Net sales (EUR million)

- Orders received increased compared with 2023
 - Orders received increased in South America, North America, Asia-Pacific and China and remained at the previous year's level in EMEA
 - Orders received increased in Energy and Process and remained at the previous year's level in Pulp and Paper
- Net sales increased compared with 2023

Process Technologies: Orders received increased to EUR 2.5 billion in 2024

Orders received (EUR million)

Net sales (EUR million)

Comparable EBITA (EUR million and % of net sales)

- Orders received increased compared with 2023
- Net sales decreased compared with 2023
- Comparable EBITA decreased compared with 2023

Pulp and Energy business line: Orders received increased to EUR 1,581 million in 2024

Orders received (EUR million)

Net sales (EUR million)

- Orders received increased compared with 2023
 - Orders received increased in South America and decreased in North America, Asia-Pacific, China and EMEA
 - Orders received increased in Pulp and decreased in Energy
- Net sales decreased compared with 2023

Paper business line: Orders received decreased to EUR 897 million in 2024

Orders received (EUR million)

Net sales (EUR million)

- Orders received decreased compared with 2023
 - Orders received increased in Asia-Pacific, remained at the previous year's level in EMEA and decreased in China, South America and North America
 - Orders received increased in Tissue and Stock preparation and Recycled fiber and decreased in Small and Medium size Machines and Board and Paper
 - Orders received of Tissue Converting amounted to EUR 174 million
- Net sales decreased compared with 2023

Orders received increased to EUR 5.8 billion in 2024

Orders received (EUR million)

Orders received in 2024 by industry

- Orders received included a landmark order for a complete pulp mill with full-scope automation and flow control solutions to Brazil from Arauco, valued at over EUR 1 billion
- Orders received increased in South America, North America and Asia-Pacific and decreased in China and EMEA in 2024 compared with 2023

Order backlog amounted to close to EUR 4.5 billion at the end of 2024

Order backlog (EUR million)

Structure of order backlog by segment

- Order backlog was EUR 479 million higher than at the end of 2023
- Approximately EUR 3.1 billion of the order backlog is currently expected to be realized as net sales during 2025 (at the end of 2023, EUR 3.3 billion during 2024)
- Approximately 35% of the order backlog relates to stable business (~40% at the end of 2023)

Selected announced orders booked in 2024

Booked quarter	Date	Description	Business line	Country	Value
Q1	Mar 19	Advantage DCT 200 tissue production line to Crown Paper Mill	Paper	Saudi Arabia	Not disclosed
Q1	Apr 16	Boiler rebuild to E.ON's power station	Pulp and Energy	United Kingdom	Not disclosed
Q1	May 2	Fiberline upgrade to the Lecta Zaragoza mill in Spain	Pulp and Energy	Spain	Not disclosed
Q1	May 29	Multiple agreements with Papierfabrik Palm	Services	Germany	Not disclosed
Q1	June 19	Converting lines to Metsä Tissue	Paper	Sweden	Not disclosed
Q2	June 10	A pellet-fired heating plant to Göteborg Energi AB	Pulp and Energy	Sweden	Not disclosed
Q2	June 25	A tissue machine to Andhra Paper	Paper	India	Not disclosed
Q2	June 26	A papermaking line and a paper machine rebuild to a customer in Asia-Pacific	Paper	Asia-Pacific	Not disclosed, but the papermaking line is typically worth between EUR 90 million and EUR 120 million, and the rebuild between EUR 20 million and EUR 40 million.
Q2	July 9	Advantage DCT 200 tissue production line to Velvet CARE Paper Mill	Paper	Poland	Not disclosed
Q3	Aug 13	A recovery boiler and an ash crystallization plant for a mill modernization project to Klabin	Pulp and Energy	Brazil	Not disclosed, typically above EUR 100 million
Q3	Oct 3	An OptiConcept M board making line to Anhui Linping Circular Development in China	Paper	China	Not disclosed, but such a board making line is typically worth between EUR 40 million and EUR 60 million.
Q3	Oct 23	An automation system Valmet DNAe to the BIR AS biogas plant in Norway	Automation Systems	Norway	
Q4	Sep 25	A complete pulp mill with full-scope automation and flow control solutions to Arauco in Brazil	Pulp and Energy	Brazil	Over EUR 1 billion.
Q4	Nov 12	A complete papermaking line to one of its major customers in Asia-Pacific	Paper	Asia-Pacific	Not disclosed, but such a papermaking line is typically worth between EUR 90 million and EUR 120 million.
Q4	Jan 16 (25')	An dvantage ThruAir Drying tissue machine to Irving Consumer Products in Macon, Georgia, USA	Paper	USA	Not disclosed
Q4	Jan 22 (25')	Modernization of a heating plant for ŠKO-ENERGO, s.r.o. in the Czech Republic	Pulp and Energy	Czech Republic	Not disclosed

Orders received and net sales split in 2024

Net sales (EUR million)

Automation

Net sales (EUR million)

Process Technologies

Net sales (EUR million)

Unique offering to support a growing market

Unique offering

Competitive advantage from the widest offering in the market

Strong market drivers

Process Technologies

- E-commerce and global trade
- Renewable materials replacing plastic packaging
- Conversions from paper to board
- Energy transition and CO₂ neutral energy production
- Energy supply security
- Tightening air emissions legislation and stricter directives

Services

- Large and aging global installed base
- Customers' CO₂ reduction targets
- Energy and resource efficiency
- Productivity and end-product quality
- Digitalization, remote services and industrial internet

Automation

- Automation and digitalization are global megatrends
- Aging machines and installed automation systems
- Demand for raw material savings, process efficiencies and sustainability
- Customers' demands on safety, reliability and emissions

Building Valmet on positive megatrends and strategy of renewal and continuous development

Demand for bio-based products and energy continues to grow	New growth opportunities	Steadily growing stable business	Strategy
	<ul style="list-style-type: none">• Future growth possibilities from new sustainable innovations• Growth opportunities in energy and process industries in Automation	<ul style="list-style-type: none">• EUR 3.4 billion stable business with high margin• Stable business has high margins and resilience to market cycles• Large and aging installed base generates a significant market	<ul style="list-style-type: none">• Strong track record of successful acquisitions and possibility to continue to invest in selected acquisitions• Strategy based on building the future systematically with renewal and continuous improvement

Concrete actions to reach Comparable EBITA target of 12–14% through must-wins

Customer

- Grow stable business over two times the market growth
- Maintain and improve market share in Process Technologies
- Improve price and sales management

Technology

- Leverage strong R&D for new product innovations
- Continue to bring advanced technology to the market
- Improve product cost competitiveness

Processes

- Ensure good project operations to reach a positive margin deviation in projects
- Improve supply chain operations to harvest cost savings
- Manage quality throughout the supply chain to minimize quality costs

People

- Increase procurement, production and engineering capabilities in cost-competitive countries
- Utilize global training portfolio to strengthen Must-Win execution

Process Technologies segment benefiting from the growing demand for bio-based products and energy

- New pulp and paper capacity is needed as demand for bio-based products continues to grow
- Energy transition creates a growing market for Valmet's energy offering
- Large old and inefficient installed base generates a significant replacement market for Valmet
- Strong business model with large prepayments and low capacity costs
- Comparable EBITA margin 3.6% (2024)

Demand for pulp and paper continues to grow (Global demand, Mton)

Net sales (EUR million)

Valmet's operational efficiency has increased

Services segment's demand driven by large and growing global installed base

- Valmet's Services is a growing and recurring business
- Demand driven by large and growing global installed base
- Roughly EUR 8 billion addressable market estimated to grow 2% annually
- Target to continue to grow over two times the market growth
- Competitive advantage from the widest offering in the market
- Strong presence in all market areas covering all key customer corporations
- Solid track record for growth
- Comparable EBITA margin 17.4% (2024)

Orders received (EUR million)

Service market development and estimate (EUR million)

Automation segment with high growth and profitability

- Valmet's Automation is a growing and recurring business
- Large addressable target market estimated to grow ~3% annually
- Target to continue to grow over two times the market growth
- Sustainability, digitalization and targets for operational efficiency drive the market for Automation Systems
- Flow control market for critical valves and valve automation has barriers of entry enabling solid profitability for leading players
- Opportunities to grow outside the core pulp and paper industry organically and through M&A
- Comparable EBITA margin 17.7% (2024)

Orders received (EUR million)

Automation Systems target market (EUR million)

Source: ARC 2021-2026 material

Flow Control market (EUR million)

Source: Frost & Sullivan

Procurement and quality cost development

Implemented procurement savings of annual direct spend

Targeting >4% of procurement savings annually

- Increasing local and cost-competitive country purchases
- Increasing design-to-cost (DTC) to create new sources for savings
- More supplier involvement through supplier relationship management
- Continuing sustainable supply chain implementation

Quality costs (% of net sales)

Long-term quality costs goal <1.5% of net sales

- Focus remains on:
 - Project deliveries and risk mitigation
 - Supplier quality by implementing Valmet minimum Quality and HSE requirements for suppliers
 - Change management, especially in engineering phase
 - Sales compliance to reduce specification errors

Valmet's development to a more stable company with more diversified industry exposure

Orders received (EUR million)

Opportunities to strengthen Services, Automation and Process Technologies segments through acquisitions

Strong track record of successful acquisitions

- 14 acquisitions made since becoming an independent company in 2014
- Total investment in acquisitions and in the merger with Neles about EUR 2.5 billion

Acquisition strategy

- Opportunities to strengthen Services, Automation and Process Technologies segments
- Selective acquisitions with a clear industrial logic and synergies
- Targeting to support Valmet in reaching financial targets
- Approximately 50 cases evaluated annually

Track record of successful acquisitions

Acquisitions in 2023 and 2024

NovaTech Automation's Process Solutions business

- The acquisition strengthens Valmet's Automation segment with a reliable batch distributed control system (DCS)
- Net sales amounted to approximately USD 18 million in 2022 and the business operates in the United States and the Benelux countries
- Completed on January 3, 2023

Tissue Converting business from Körber

- Tissue Converting strengthens Valmet's Process Technologies and Services segments
- In 2023, net sales of the business amounted to EUR 296 million, of which EUR 76 million was booked to Valmet
- The business employs around 1,170 employees in Italy, Brazil, the U.S., China and Japan
- Completed on November 2, 2023

Process Gas Chromatography business of Siemens

- Process Gas Chromatography business strengthens Valmet's Automation segment and process automation offering
- In 2022, net sales of the business amounted to approximately EUR 120 million and pro-forma adjusted EBITDA margin was approximately 10%
- The business employs around 300 people, and its main locations are in the USA, Germany, and Singapore
- Completed on April 2, 2024

Demuth

- Demuth strengthens Valmet's wood handling technology offering and services presence in South America
- Net sales of Demuth have been around EUR 20–30 million annually and the company employs around 300–400 people
- Completed on August 1, 2024

Merger of Valmet and Neles created a leading company with a unique offering for process industries globally

- Merger of Valmet and Neles was registered and the combination of Valmet's and Neles' business operations completed on April 1, 2022
- Valmet acquired 29.5% of Neles shares in 2020 for EUR 456 million, average price per share was EUR 10.27
- Merger consideration to Neles' shareholders was approximately 34.7 million Valmet shares, amounting to EUR 978 million
- The total cost of Neles' shares acquired by Valmet amounted to EUR 1,434 million
- Valmet's share price at the end of March 31, 2022, was EUR 28.21
- Valmet's number of shares increased to approximately 184.5 million
- Neles' extra distribution before the merger to Neles shareholders was EUR 2.00 per share
- Starting from Q2/2022, Neles is part of Valmet's Automation segment and forms the fifth business line to Valmet, called Flow Control

Acquisition of Körber's Business Area Tissue

Acquisition in brief

- On July 7, 2023, Valmet entered into an agreement to acquire Körber Group's Business Area Tissue. The transaction was closed on November 2, 2023
- The enterprise value is approximately EUR 380 million¹
- The acquired business will operate integrated in Valmet's Paper business line as business unit Tissue Converting
- In Valmet's reporting, the process technology part of the business will be consolidated to Paper business line and the services part to the Services business line

Körber Group's Business Area Tissue in brief

- Process technologies as well as related services and automation for converting the jumbo reels of tissue paper into final tissue products for consumers and the Away from Home segment
- The broadest offering in the tissue converting industry
- In 2022, net sales amounted to EUR ~305 million and adj. EBITDA margin ~12%
- A strong and growing services business, which accounted for 36% of total net sales in 2022
- HQ in Italy and ~1,170 employees in Italy, Brazil, China, Japan and the U.S.

Strategic rationale of the acquisition

- Creating the markets' widest technology, automation and services offering for the growing tissue industry
- Strengthen both Process Technologies and Services segments
- The combination of Valmet's legacy tissue offering and the acquired tissue converting is complementary and good strategic fit
- The combination forms a strong basis to create new business opportunities and serve our customers even better
- Valmet estimates that the acquisition will bring sales, service and cost synergies worth of EUR 8 million by the end of 2026

1) On a cash and debt free basis subject to ordinary post-closing adjustments

Acquisition of the Process Gas Chromatography business of Siemens

Acquisition in brief

- Valmet entered into an agreement on July 14, 2023, to acquire the Process Gas Chromatography business of Siemens AG
- The enterprise value is EUR 102.5 million¹
- The acquisition was completed on April 2, 2024
- The acquired business is integrated into Valmet's Automation Systems business line as a business unit called Analyzer Products and Integration

Siemens Process Gas Chromatography business in brief

- Gas Chromatographs are used to measure the chemical composition in gases and evaporable liquids in all stages of production
- Market leader in process gas chromatography
- The Maxum brand is widely known in process industries and used extensively by world's leading industrial customers
- In 2022, net sales of the acquired business amounted to approximately EUR 120 million and pro-forma adjusted EBITDA margin was approximately 10%

Strategic rationale of the acquisition

- The acquired offering complements Valmet's existing automation offering, industry reach and expertise
- The acquisition strengthens Valmet's Automation segment and process automation offering
- The acquisition strengthens Automation Systems business footprint in North America, Asia-Pacific, and Europe

1) On a cash and debt free basis subject to ordinary post-closing adjustments

Appendix
Offering

Mission statement refined to reflect the changes in our business portfolio and customer base

Mission

We create sustainable results by converting renewable resources and making industrial processes reliable and efficient

Strategy

Valmet develops and supplies competitive and reliable process technologies, services and automation to the pulp, paper and energy industries.

Our automation business covers a wide base of global process industries.

We are committed to moving our customers' performance forward with our unique offering and way to serve.

Continuous improvement and renewal

Must-Wins

- Customer excellence
- Leader in technology and innovation
- Excellence in processes
- Winning team

Business accelerators

Vision

To become the global champion in serving our customers and in moving the industries forward

Our Values

Customers

We move our customers' performance forward

Renewal

We promote new ideas to create the future

Excellence

We improve every day to deliver results

People

We work together to make a difference

Megatrends

- Climate change and resource efficient world
- Digitalization and new technologies
- Urban, responsible and globally connected people

Services: Strong market position with market's widest offering

Performance Parts

- Spare parts
- Consumables

- High-quality spare parts, upgraded parts and retrofits
- Process consumables with process knowledge

Fabrics

- Paper machine clothing
- Filter fabrics

- Application expertise with high-quality clothing
- Various filtration applications and reliable deliveries
- High market share in projects

Rolls and workshop services

- Rolls
- Roll covers
- Roll maintenance
- Workshop services

- Wide geographical workshop coverage
- New competitive products

Board, Paper and Tissue Solutions

- Improvement projects
- Field services
- Lifecycle agreements
- Outsourcing

- Large and growing Valmet installed base
- Process and project execution knowhow
- Strong Field services network
- Strong references

Pulp and Energy Solutions

- Improvement projects
- Field services
- Lifecycle agreements
- Outsourcing

- Large and growing Valmet installed base
- Process and project execution knowhow
- Strong Field services network
- Strong references

Offering

Competitive advantages

Services: Unified way to serve aims at excellent customer experience

We aim to understand customer strategy and needs

- Understanding customer strategy and need through Corporate account management and Mill Teams
- Mill team: Mill Sales Manager and product experts appointed for the mill
- Mill Team having annual targets to grow Valmet's market share at the customer
- One point of contact to customers

Sales actions planned based on customer needs

- Aligning customer targets with Valmet's sales and service actions through annual sales planning
- Over 10,000 actions each year

Continuous collaboration through lifecycle approach

- Right combination of services for every stage in the lifecycle
- Delivery by products, agreements, projects

High customer satisfaction

- Customer satisfaction measured with Net Promoter Score (NPS)
- NPS target 70%
- Detractor comments leading to fast corrective actions

Automation Systems: High technology and competitive offering

Distributed Control Systems (DCS)

- Highly integrated, renewing Valmet DNA Automation System for process control, monitoring and applications for different industries
- Automation services and Industrial internet solutions

Quality Management Systems (QMS)

- Valmet IQ Quality control system for pulp and paper
- Quality management applications to optimize resource usage and quality
- Automation services and Industrial internet solutions

Analyzers and Measurements

- For measuring and optimizing different variables in industrial processes
- Automation services and Industrial internet solutions

Offering

Competitive advantages

- Integrated, industrial internet ready automation platform with wide application offering for focus industries
- User experience focused web-based user interface with secure access
- Future-proof technology - lifetime compatibility

- World's widest offering in quality management for board and paper
- Integrated to automation platform
- Quality optimization across the value chain all the way from fibers to finished product (e.g., carton board boxes)

- World's widest and most trusted offering for pulp and paper
- Measurements to adjacent markets like wastewater
- Unique combination of advanced process controls and optimization: a solid base of data for mill-wide optimization

Automation Systems: Customers investing in improving their operations

Real-time & predictive control and optimization

secure connection to cloud

5. Optimization Applications
Optimized production of the entire mill, plant or fleet

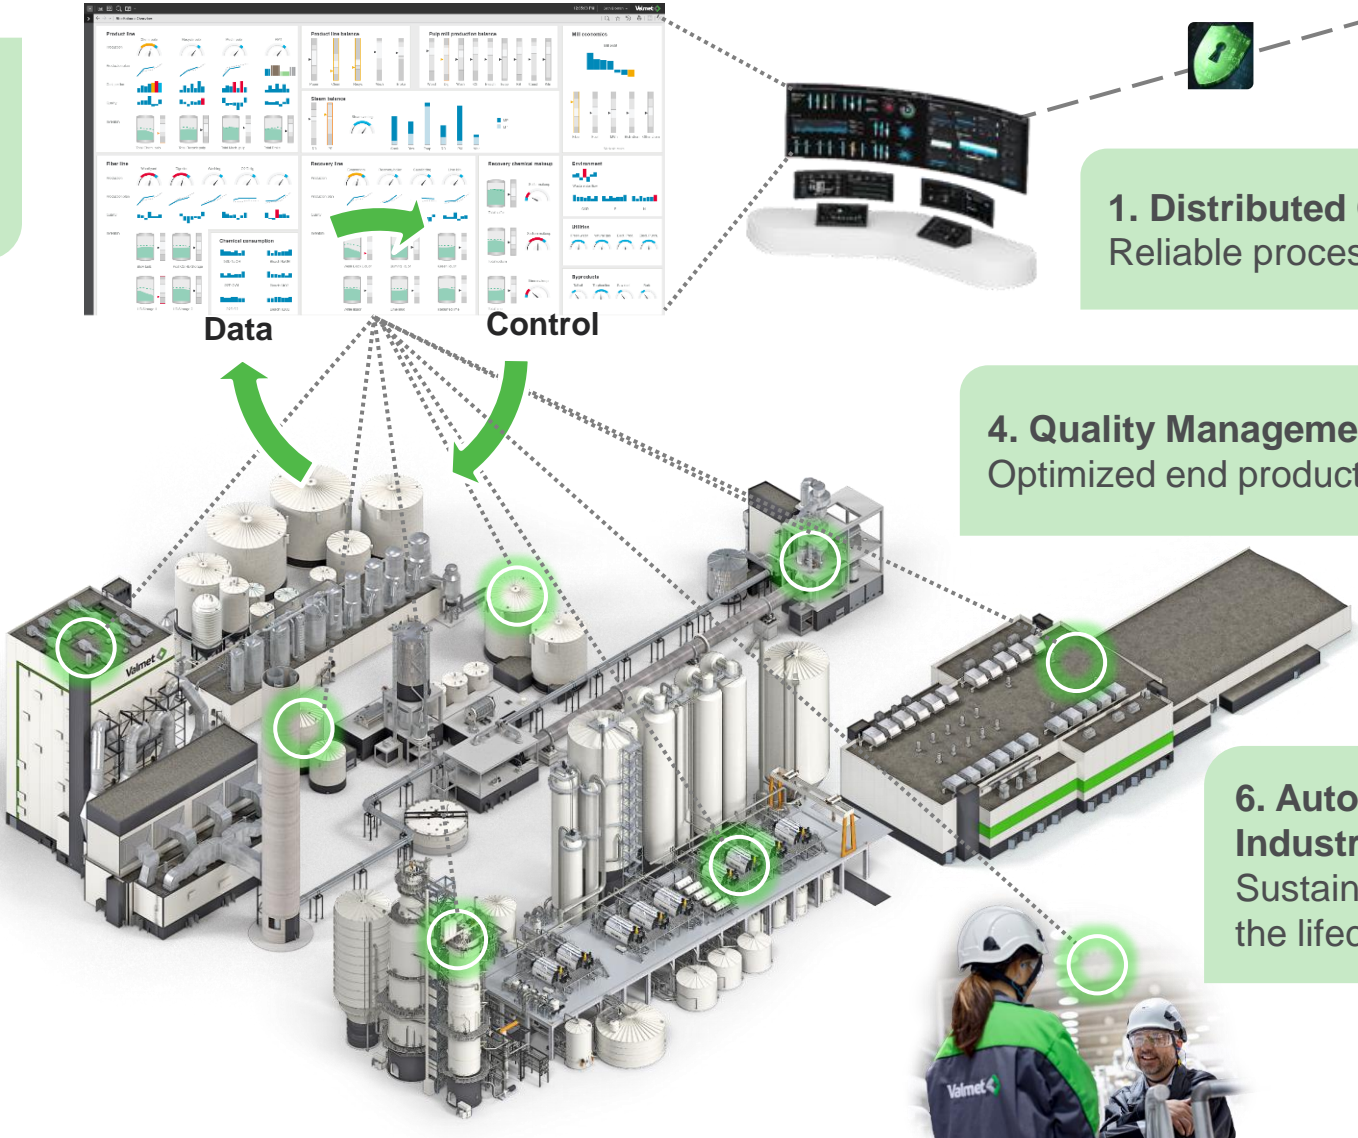

1. Distributed Control Systems
Reliable process control

3. Analyzers & Measurements, Valves
Process data for control and optimization

4. Quality Management Systems
Optimized end product quality

2. Intelligent Process Equipment
Diagnostics data for control and optimization

6. Automation Services and Industrial Internet Solutions
Sustainable performance over the lifecycle

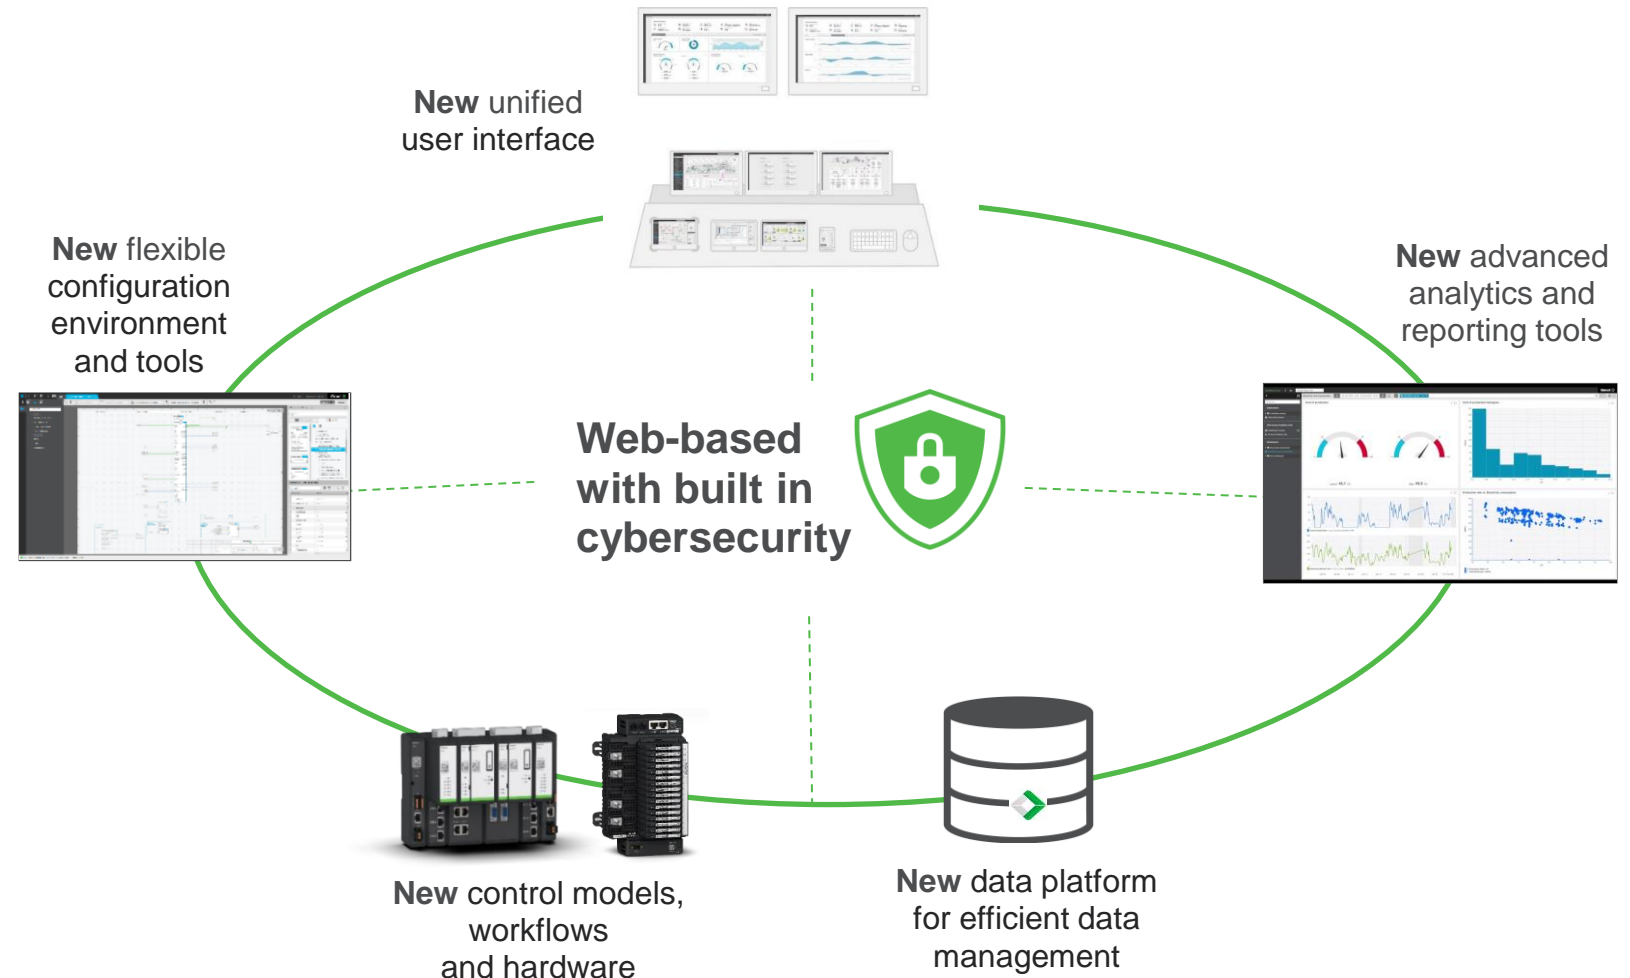

Valmet DNAe – the future-proof Distributed Control System (DCS)

- On April 9, 2024, Valmet launched its new DCS system, Valmet DNAe
- Represents a major milestone in process automation and increases the competitiveness of Valmet's DCS offering
- Fully web-based platform with industry-leading user experience and cybersecurity
- Helps customers improve efficiency, productivity, sustainability and safety of their operations
- Provides a solid platform for moving towards more digitalized, autonomous operations
- In 2023, orders received of Valmet's DCS amounted to roughly EUR 314 million

Major step in Valmet's strategy for growing automation business further to a wide base of process industries globally

Supports Valmet's financial target of growing over two times the market growth in the Automation segment

Leading pulp and energy technology offering

Pulp

Complete mills and lines

- Complete chemical pulp mills from wood handling to bales
- Mechanical pulping lines (BCTMP, CTMP)
- Plant-wide project execution and management

Single islands and products

- Chemical pulp mill islands
- Defibrators for fiberboard production
- Prehydrolysis BioTrac systems
- LignoBoost plants
- Textile recycling technology

- Mill-wide offering with automation and services
- Optimized production, energy efficiency and environmental performance
- Local presence through Area organization

- Leading technology e.g. G3 Cooking with strong market success
- Leading mechanical pulping (CTMP) solutions
- Strong position in new products
- Excellent energy and environmental performance

Energy

Boilers and power plants

- Fluidized bed boilers – using biomass, waste and residues
- Biomass gasifiers
- Modular power plants
- Emission control systems (SOx, NOx and dust removal)

- Strong expertise in biomass-based power and heat
- Excellent fuel flexibility with fluidized bed technology
- Large reference base
- Local presence through Area organization and partners

Rebuilds and conversions

- Boiler fuel conversions from fossil to biomass
- Boiler production capacity upgrades
- Emission reduction projects

- Technical knowledge of the process including fuel handling, combustion and emission control
- Various complementing technologies
- Large reference base

Offering

Competitive advantages

Unmatched scope in Board, Paper and Tissue

New instalments

Rebuilds

Single products

Board

Stock preparation and recycled fiber lines

Capacity and quality improvements

e.g., headboxes, press rebuilds, surface treatment, winders, refiners

Paper

Paper, board and tissue machinery

Focus on productivity improvement

Automation Systems

Flow Control

Services for optimized overall performance

Energy efficiency and productivity

e.g., headboxes, ViscoNip presses, rewinders, refiners

Tissue

Valmet Tissue Converting: Creating the market's widest offering for tissue industry

Technologies, services and automation for the entire tissue value chain – from fiber to a finished end product

Stock preparation

Tissue machine

Tissue rewinder

Converting line

- With Tissue Converting, Valmet now has the market's widest portfolio of process technologies, services and automation solutions for the entire tissue value chain
- The leading tissue making and converting technologies combined with Valmet Industrial Internet will enable significant productivity as well as end-product quality improvements for tissue customers

Driving rebuilds towards resource-efficient board production

Energy consumption¹
-18%

2012–2022:
from 1,150 to 950 kWh/t

Fiber savings¹
-10%

2012–2022:
from 100 to 90 g/m²

Optimized performance
with Industrial Internet
solutions

Bio-packaging
with new coating solutions

OptiFlo with Aqua headbox
Solution for multilayering with single headbox

OptiFormer Hybrid with Sleeve roll
Solution for capacity and strength improvement

OptiPress Center with Metal belt
Towards increased dry content and decreased draw

Steel cylinder
Solution for higher drying efficiency

OptiSizer HardSizer with Hard Nip
Solution for improved strength

OptiCalender Metal Belt
Better surface quality and higher bulk

Aqua Cooling
Improved bulk

Driving development of resource-efficient tissue production

47% less energy¹

80% less water¹

Less fiber consumption²

¹ DCT type of mill, same production and basis weight

² Achieving the same main tissue specific paper properties

Appendix
Management and remuneration

Board of Directors

Mikael Mäkinen
(b. 1956)
Chair of the Board
Finnish citizen

- M.Sc. (Eng.)
- Other positions of trust:
 - Chair of the Board of AkerArctic Technology Inc. and Corvus Energy
 - Board member in SSAB AB and Finnlines Oyj
- Share ownership: 11,906
- Independent of company: Yes
- Independent of owners: Yes

Jaakko Eskola
(b. 1958)
Vice Chair of the Board
Finnish citizen

- M.Sc. (Eng.)
- Other positions of trust:
 - Chair of the Board of Kalmar Oyj, Varma Mutual Pension Insurance Company, and Oyj HIFK-Hockey Ab
 - Board member of Finnish Foundation for Share Promotion
- Share ownership: 4,870
- Independent of company: Yes
- Independent of owners: Yes

Anu Hämäläinen
(b. 1965)
Board member
Finnish citizen

- M.Sc. (Econ.)
- EVP, CFO at Kesko Corporation
- Other positions of trust:
 - Deputy Board member of Kesko Pension Fund, Board Member of K-Tilipalvelu Oy
- Share ownership: 4,196
- Independent of company: Yes
- Independent of owners: Yes

Pekka Kemppainen
(b. 1954)
Board member
Finnish citizen

- Lic.Sc. (Tech.)
- Other positions of trust:
 - Board member of Bittium Oyj and Junttan Oy
- Share ownership: 6,535
- Independent of company: Yes
- Independent of owners: Yes

Per Lindberg
(b. 1959)
Board member
Swedish citizen

- M.Sc. (Eng.), PhD (Industrial Management)
- Senior Advisor at Peymar Holding AB
- Other positions of trust:
 - Chair of the BoD of Nordic Brass Gusum AB
 - Board member of Boliden AB and Vattenfall AB
- Share ownership: 3,591
- Independent of company: Yes
- Independent of owners: Yes

Annareetta Lumme-Timonen
(b. 1967)
Board member
Finnish citizen

- M.Sc. (Eng.), D.Sc. (Tech.)
- Investment Director at Solidium Oy
- Other positions of trust:
 - Board member of Anora Group Plc
- Share ownership: 1,582
- Independent of company: Yes
- Independent of owners: No, due to her role in Solidium Oy

Monika Maurer
(b. 1956)
Board member
German citizen

- Diploma in Physics and Chemistry
- Diploma in Pedagogy
- Other positions of trust:
 - Vice Chair of the Board of Nokia Shanghai Bell, Co. Ltd
- Share ownership: 6,535
- Independent of company: Yes
- Independent of owners: Yes

Annika Paasikivi
(b. 1975)
Board member
Finnish citizen

- B.A., M.Sc. (Global Politics)
- President & CEO of Oras Invest Oy
- Other positions of trust:
 - Vice Chair of the Board of Kemira Oyj, Board member of Georg Fischer Ltd
- Share ownership: 1,449
- Independent of company: Yes
- Independent of owners: No, due to her role in Oras Invest Oy
