General Specifications

| | | | |
|----------------------------------|--------------------------------|-----------------------------|---------------------------------|
| Materials of Construction | | Operating Life | Unlimited |
| Housing | Epoxy Coated Anodized Aluminum | Temperature Range | -40° to +80° C (-40° to 176° F) |
| Cover | Polycarbonate | Enclosure Protection | NEMA 4, 4X & 6; IP67 |
| Elastomer Seals | Silicone | Warranty | Two Years |
| Fasteners | Stainless Steel | | |

Dimensions (in inches)

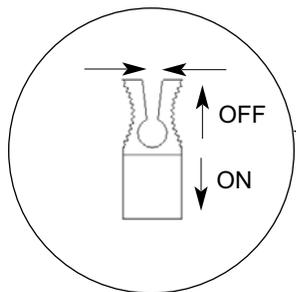

DeviceNet Switched Power Protected Drop Connector

Bus in, Bus out, and (6) Switched Power Protected Drops for DeviceNet networks.

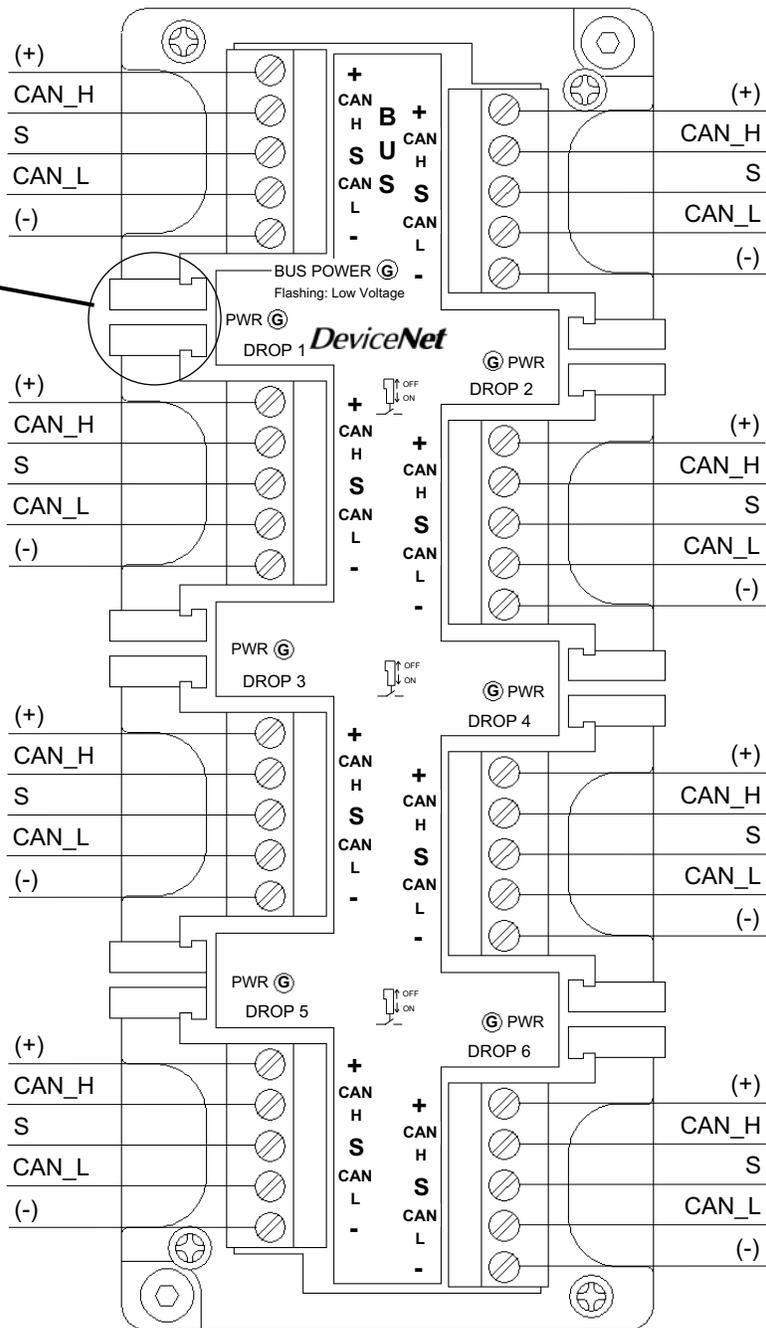

| | | | |
|-------------------|-------------------|----------------------|---|
| Voltage Range | 30 VDC max | Current Consumption | 10mA max |
| Operating Voltage | DeviceNet Voltage | Voltage Drop (Trunk) | Negligible |
| Current Rating | 8 Amps (Bus) | Voltage Drop (Drop) | 1.0 VDC max |
| Break Current | >240mA (on V+)* | LED Displays: | BUS POWER, Green LED (Flashing = low voltage) |
| Holding Current | 28mA | | PWR, Green LED, Drop Energized |
| Reset Current | <28mA | | |

*Short circuit protection only on V+. Communication wires are passive

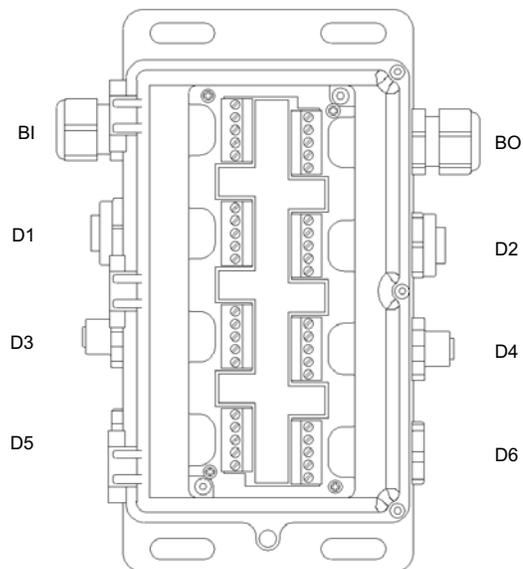

Drop Disconnect Switch Operation

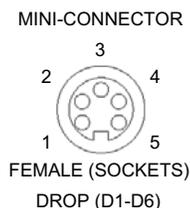

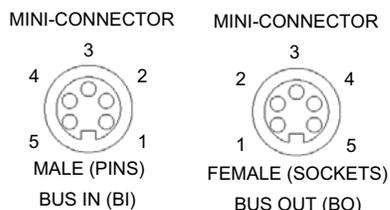

1. To energize a selected drop, compress "ears" of yellow disconnect switch with finger tips and push down. Green "PWR" LED of selected drop will light.
2. To de-energize a selected drop, compress "ears" of yellow disconnect switch with finger tips and pull up. Green "PWR" LED of selected drop will extinguish. Drop is now isolated from the network.

FNS06 Mounting Instructions

Mounting The FieldBlock Enclosure

1. Locate the position where the FieldBlock enclosure will be mounted. Ensure that hinged cover of the unit will have sufficient clearance to be opened.
2. Attach the FieldBlock enclosure to a wall or other stationary flat surface using the mounting holes provided.

Attaching Cables and Connectors

1. Cable glands and connectors are provided for convenient wiring. Ensure all connections are securely tightened.
2. Follow all applicable NEC codes and other regulations.

Installing & Removing Cover

1. To insure NEMA 4, 4X and 6 ratings are maintained the cover **must be** completely closed and the gasket sealed to keep out water.
2. Tighten cover screws to 05-30 inch lbs.
